

# Imagine. Legible, Professional Labels for Your Lab Samples in Just Minutes

Create files, templates and more with the easy-to-use wizards in Brady's **IdentiLab™** Label Software.

The streamlined interface and hundreds of parts and graphics categorized by common lab applications makes creating legible, durable and accurate laboratory specific labels quick and easy.

- Easy-to-use wizards to create new files and templates
- Superscript and subscript characters
- Database import capabilities with refresh to ensure data integrity
- Automatic text formatting
- 2-D bar code support
- Multi-label data entry view
- Die cut and continuous label supplies
- Compatibility with a variety of Brady printers including LABXPERT™ Laboratory Labeling System, TLS 2200® Thermal Labeling System, TLS-PC Link™ Thermal Labeling System, all Bradyprinter™ models, and all Windows-based printers

## IdentiLab™ Label Software

Designed specifically for laboratory users, IdentiLab is loaded with capabilities to provide you with an all-in-one solution to meet your labeling needs.

### Print your labels in just three simple steps.

#### Step 1:

Choose category of label type to fit your Lab Application.

#### Step 2:

Select your printer and the label part you have installed.

#### Step 3:

Type your label text onto label preview to see your whole print job on screen!

## IdentiLab Version 1.0 Part Number IDL

Brady Corporation has researched the needs specific to lab environments and designed a complete line of labeling solutions to meet your unique challenges. From handheld and bench top printers to label materials developed and tested to stand up in any type of lab environment, Brady has the solutions for all your laboratory labeling needs.

Vials

Bottles
